BRIARCLIFF—Brilliant silvery rose blossoms; vigorous, producing fine stems for cutting.

DAME EDITH HELEN—A rose of great promise, with shapely buds and large blooms of soft brilliant pink; delicate fragrance.

DUCHESS OF WELLINGTON—Large, well-formed buds, opening to semi-double saffron-yellow flowers, stained with crimson and changing to lighter yellow. Fragrant and constant.

EDEL—A superb and vigorous plant, bearing stately blooms of pure ivory-white on erect stems.

ETOILE DE FRANCE—A vivid crimson with darker shadings; double, good size, and delightfully scented.

ETOILE DE HOLLANDE—A clean, vigorous grower producing large, magnificent flowers throughout the season, attractive when half open, in color a brilliant crimson red. Very reliable.

FRANCIS SCOTT KEY—An American rose of immense size and a rich red coloring, also very regular arrangement of its petals. The plant is sturdy and a good bloomer, both in spring and fall.

GRUSS AN TEPLITZ—A valuable garden rose, a free strong grower, in bloom all the time; color a rich scarlet shading to velvety crimson; fragrant.

IMPERIAL POTENTATE—A beautiful, free-flowering garden variety. Well-shaped buds become large, fragrant, double flowers of glistening rose-pink with silvery suffusion at base of petals.

LADY ALICE STANLEY—A gem that everyone admires. In color it is a lovely shade of coral-rose, the inside of the petals shading to flesh pink with deeper flushes.

LOS ANGELES—One of the finest roses ever introduced. The growth is very vigorous and produces a continuous succession of long-stemmed, fragrant flowers of luminous flame pink toned with coral.

MISS C. E. VAN ROSSEM—Velvety dark red, well-formed buds and open flowers touched scarlet. Best in autumn.

MME. BUTTERFLY—Described as a glorified Ophelia; foliage and habit unsurpassed; in color a harmony of bright pink, apricot and gold; a beautiful rose.

MME. EDOUARD HERRIOTT—The buds are coral red, shaded with yellow at the base; the open flowers of medium size, semi-double, are of superb coral red, shaded with yellow and bright rosy scarlet, passing to shrimp red.

MRS. AARON WARD—The buds are long and shapely and open into cup-shaped flowers of deep Indian yellow, occasionally washed with salmon rose. A most desirable and floriferous rose.

MRS. CHARLES BELL—Lovely shell pink with salmon shadings, sweetly perfumed, strong and bushy.

MRS. W. C. MILLER—Peony-like flowers of rose and light pink. Sweetly perfumed, very dependable. A beautiful bedding rose.

RADIANCE—An ideal rose for every garden, in color a brilliant carmine pink, with salmon pink and yellow shadings at the base of petals; one of the hardiest.

RED RADIANCE—The exact duplicate of Radiance in every way except in color which is deep red; attractive the whole season.

SIR DAVID DAVIS—Pointed buds and high-centred flowers of glowing crimson; fragrant and lasting.

SOUVENIR DE CLAUDIUS PERNET—Pure yellow, paler toward edge, beautiful when half open, foliage glossy and disease-resistant. Blooms early and late. A sensational rose.

WILLIAM KORDES—Buds of coppery salmon-red, with flowers of salmon-pink when open.

June Roses

Completely hardy and of vigorous growth, these roses fill an important place in the rose garden, blooming profusely in June. *These varieties also flower later in the season.

*MME. ALBERT BARBIER

A distinctive rose in this class. Buds are long and shapely, pearly white suffused with soft salmon-flesh; open flowers with large golden centre; strong and free-blooming. \$1.00 each.

ANNA DIESBACH—A lovely bright carmine rose; very attractive.

CAPTAIN HAYWARD—Scarlet crimson, well-formed flowers.

*FRAU KARL DRUSCHKI—The finest pure white rose; very large.

GENERAL JACQUEMINOT—Brilliant scarlet crimson; does well everywhere.

*GEORGE AHREND—One of the best, bearing many delicate pink flowers.

*HENRY NEVARD—Flowers are crimson-scarlet; large fine form; sweetly scented.

*MRS. JOHN LAING—An excellent rose; large, soft pink blooms; fragrant.

PAUL NEYRON—Massive flowers of deep rose color; sweet scented.

PRINCE CAMILLE DE ROHAN—A beautiful dark rose; deep velvety crimson.

Baby Ramblers

The most truly everblooming of all roses, being scarcely out of flower during the whole growing season. They are dwarf, bushy plants, seldom more than 18 inches high.

Valuable for massing and edging. Ours are pot-grown and are of the finest quality.

BABY ECHO—Very large flower trusses of soft, tender pink.

CECILE BRUNNER—Tiny, perfectly formed buds and blooms of soft pink and gold. Known as the "Sweetheart Rose."

ELLEN POULSEN—Full flowers of bright rose pink, darker edges; slightly fragrant.

ELSE POULSEN—Nearly single, bright rose pink flowers; large branching clusters.

GRUSS AN AACHEN—Large-flowering, flesh pink, very double; strong growth, good cut flower.

IDEAL—Dark scarlet, shaded black; very profuse bloom in large, compact bunches.

LAFAYETTE—Flowers large and semi-double; light crimson; most attractive the whole season.

LA MARNE—Delicately beautiful flowers of blush-white, edged with vivid pink.

ORANGE PERFECTION—This sparkling new Polyantha demands notice by its well-shaped flowers and their brilliant orange glow of color.

ORLEANS—A good variety for massing, bearing small, double flowers of brilliant geranium red with whitish centre.

THE NEW DAWN

This new and promising variety is a sport from the long acknowledged and much admired Dr. Van Fleet, and is identical with parent in size, color, and form, but blooms continuously through summer and fall. \$2.00 each.

- AMERICAN BEAUTY, CLIMBING—Flowers a rich carmine color; very fragrant.
 AMERICAN PILLAR—Large single flowers of deep pink; a superior variety.
 CRIMSON RAMBLER—Large trusses of crimson bloom; makes a gorgeous display.
 DOROTHY PERKINS—Soft, shell pink; very fragrant and lasting.
 DR. VAN FLEET—A dainty flesh pink; long stems; excellent for cutting.
 EVANGELINE—Large, single flowers, rosy white tipped pink; very fragrant.
 EXCELSA—Flowers double, brilliant red; dark glossy foliage.
 HIAWATHA—Single, ruby-carmine in color; an exceptional climbing rose.
 JACOTTE—Large, clustered flowers of orange-yellow, tinted copper-red. Profuse bloomer.
 LADY GAY—Desirable rapid-growing variety; long sprays of delicate pink.
 LE REVE—The best yellow climbing rose with golden buds and bright yellow semi-double flowers, and has proved itself very reliable. Good foliage; flowers fragrant and unfading.
 MARIE GOUCHAULT—Large clusters of double flowers of clear, light red, tinged salmon-rose; blooms early, is long-lasting, and has splendid foliage.
 MARY WALLACE—Hardy pillar rose with large, glossy foliage. Blooms with great freedom in spring, and bears a considerable number of fine buds in summer and fall. Flowers well-formed, semi-double, bright, clear rose-pink, with salmon base to petals.
 MILKY WAY—A very attractive white climbing rose.
 MRS. M. H. WALSH—Very double, pure white, in large clusters; vigorous.
 PAPA GOUCHAULT—Double, pure crimson red, excellent foliage.
 PAUL'S SCARLET CLIMBER—Flowers of medium size, semi-double, freely produced in clusters of 3 to 6 flowers each on much-branched canes. Very beautiful and a great favorite.
 PRIMROSE—Light primrose-yellow flowers on long stems; very hardy, free-blooming and lasting.
 ROSARIE—Large, rich pink flowers; very free bloomer; an improved Tausendschon.
 SILVER MOON—Large, semi-double flowers of pure white; very lovely.
 SNOWDRIFT—Double white flowers; vigorous grower.

OUR ROSES

All the varieties we offer are the ones best suited to this climate, giving excellent results the first season. Choose the best position for your garden, with south-eastern exposure if possible, open to the fresh air and away from trees. The soil should be well drained, and should be at least 18 inches deep, composed of good garden loam (a portion of sod loam is desirable) and well rotted manure. Roses should be planted so that the union of the bud and stock is 2 inches below the surface. The soil should be very firm around them. Our pot-grown stock can be set out at any time.
